

MAAZ SIDDIQUI

BACKEND PYTHON DEVELOPER | DJANGO | REACT | WEB DEVELOPMENT

+91-8850281310 | siddiqui.maaz79@gmail.com | [LinkedIn](https://www.linkedin.com/in/siddiqui-maazzz/) | [Portfolio](https://the-maaz-portfolio.vercel.app/) | [GitHub](https://github.com/maazsiddiqui79) | Mumbai, Maharashtra

SUMMARY

Backend-focused Python developer with hands-on experience building web applications using Python, Flask, and Django. Experienced in backend development, authentication, databases, web scraping, automation, and responsive web interfaces. Built and deployed practical applications including a task manager, Morse Code encoder/decoder, URL shortener, and an AI-powered blogging platform with chatbot, knowledge retrieval, and engagement analytics. Currently expanding frontend and cloud skills with React, AWS EC2, and Amazon S3.

PROFESSIONAL EXPERIENCE

Intern

Quality Software 06/2025 – 08/2025 | Thane, Maharashtra

- Developed a Morse Code Encoder & Decoder application with 99% accuracy in encoding and decoding text.
- Built a personal blog website and developed a Quiz Code application for interactive learning.
- Deployed a URL Shortener service and contributed to practical web application development tasks.

PROJECTS

SmartBlogger — AI-Powered Blog Platform Final Year Diploma Project

https://github.com/maazsiddiqui79/Smart_Blogging-Platform-FYP

- Led frontend and backend development of a Django-based blogging platform integrating an AI chatbot, blog-based knowledge retrieval, external web search, and engagement analytics.
- Implemented authentication, blog management, comments, likes, bookmarks, followers, responsive UI, CKEditor publishing, and analytics for views, traffic, and reader engagement.

Todo List Web App 06/2025 – 08/2025

<https://go-todo-task.vercel.app/>

- Built a full-stack task management application using Flask with secure authentication and hashed passwords; implemented task creation, editing, deletion, and prioritization.

Morse Code Encoder & Decoder 06/2025 – 08/2025

<http://morse-origin.vercel.app/>

- Engineered a web application for efficient text-to-Morse and Morse-to-text conversion with 99% encoding/decoding accuracy.

URL Shortener 06/2025 – 08/2025

<https://shortify-maazdev.vercel.app/>

- Built a service that converts long URLs into short, shareable links and improved link-sharing efficiency by 50%.

Amazon Search Result Scraper 02/2025

[GitHub repository available on request](#)

- Implemented data parsing and storage with optional CSV export to support market research and price-tracking workflows.

EDUCATION

Bachelor of Engineering in Computer Engineering /2026 – 2029 (Expected) | **Thakur College of Engineering and Technology (TCET), Mumbai**

Diploma in Computer Engineering 09/2023 - 09/2026 | **M.H. Saboo Siddik College, Mumbai** | 93.53%

SSC(10th) 2013 - 2023 | **St. Stanislaus High School** | 83%

TECHNICAL SKILLS

Languages	Python, Java, SQL, HTML5, CSS3, JavaScript
Frameworks	Django, Flask, React, Bootstrap, Tailwind CSS
Databases & Tools	SQLite, SQLAlchemy, Django ORM, Git, GitHub, VS Code, Linux, Supabase, Render,
Cloud & Development	AWS EC2, Amazon S3, Git, GitHub, VS Code, Linux, Render, Vercel,
AI & Development	AI-Assisted Development, Prompt Engineering, Cursor, Replit, Google Antigravity, Stitch
Other	Web Design, Web Scraping, Automation, Data Structures, Database Management
