

MAAZ SIDDIQUI

BACKEND PYTHON DEVELOPER | DJANGO | REACT | WEB DEVELOPMENT

+91-8850281310 | siddiqui.maaz79@gmail.com | [LinkedIn](https://www.linkedin.com/in/siddiqui-maazzz/)(https://www.linkedin.com/in/siddiqui-maazzz/) | [Portfolio](https://the-maaz-portfolio.vercel.app/)(https://the-maaz-portfolio.vercel.app/) | [GitHub](https://github.com/maazsiddiqui79)(https://github.com/maazsiddiqui79) | Mumbai, Maharashtra

SUMMARY

Backend-focused Python developer with experience building web applications using Python, Flask, and Django. Worked on backend development, authentication, databases, web scraping, automation, and responsive web interfaces. Built and deployed applications including a task manager, Morse Code encoder and decoder, URL shortener, and an AI-powered blogging platform with a chatbot, knowledge retrieval, and engagement analytics. Currently improving frontend and cloud skills with React, AWS EC2, and Amazon S3.

ACADEMIC QUALIFICATIONS

Bachelor of Engineering (B.E.) in Computer Engineering | 2026 – 2029 (Expected)

Thakur College of Engineering and Technology (TCET), Mumbai

Diploma in Computer Engineering | 2023 – 2026

M.H. Saboo Siddik College, Mumbai | 94%

Secondary School Certificate (SSC) (10th) | 2013 – 2023

St. Stanislaus High School | 83%

COURSEWORK / SKILLS

Languages: Python, Java, SQL, HTML5, CSS3, JavaScript

Frameworks: Django, Flask, React, Bootstrap, Tailwind CSS

Databases & Tools: SQLite, SQLAlchemy, Django ORM, Git, GitHub, VS Code, Linux, Supabase, Render

Cloud & Development: AWS EC2, Amazon S3, Auto Scaling, Git, GitHub, VS Code, Linux, Render, Vercel

AI & Development: AI Assisted Development, Prompt Engineering, Replit, Google Antigravity, Stitch

Other: Web Design, Web Scraping, Automation, Data Structures, Database Management

Professional Skills: Problem Solving, Technical Communication, Collaboration, Adaptability

PROJECTS

Smart Blogger — AI Powered Blog Platform | Final Year Diploma Project

https://github.com/maazsiddiqui79/Smart_Blogging-Platform-FYP

- Led frontend and backend development of a Django-based blogging platform with an AI chatbot, blog-based knowledge retrieval, external web search, and engagement analytics.
- Implemented authentication, blog management, comments, likes, bookmarks, followers, responsive UI, CKEditor publishing, and analytics for views, traffic, and reader engagement.

Speak Easy — GEN AI | 06/2025 ☐ Winner

<https://speakeasy-ai-one.vercel.app/>

- Developed an AI-powered voice communication platform with interview, pressure, debate, and document-based training modes.
- Added speech analysis, filler-word detection, AI feedback, multilingual support, and performance reports.

Morse Code Encoder & Decoder | 06/2025 – 08/2025

<http://morse-origin.vercel.app/>

- Built a web application for text-to-Morse and Morse-to-text conversion with 99% encoding and decoding accuracy.

URL Shortener | 06/2025 – 08/2025

<https://shortify-maazdev.vercel.app/>

- Built a service that converts long URLs into short and shareable links and improved link-sharing efficiency by 50%.

Amazon Search Result Scraper | 02/2025

<https://github.com/maazsiddiqui79/100-Days-Python-Project/tree/main/50.%20-Scraping-Amazon-Search-Results%20%5BPractice%20project%5D>

- Built a scraper for collecting and processing Amazon search result data with optional CSV export for market research and price tracking.

EXPERIENCE

Frontend Development Trainee | Heuristic Academy | May 2026 – Jul 2026

Nagpada, Mumbai

- Successfully completed a three-month training program focused on frontend development.
- Strengthened practical skills in building structured, responsive, and user-focused web interfaces.
- Applied frontend development concepts through practical exercises and project-based learning.

Intern | Quality Software | 06/2025 – 08/2025

Thane, Maharashtra

- Developed a Morse Code Encoder and Decoder application with 99% accuracy in encoding and decoding text.
- Built a personal blog website and developed a Quiz Code application for interactive learning.
- Deployed a URL Shortener service and worked on practical web application development tasks.

ACHIEVEMENTS

▪ Zephyr Gen-AI Workshop at TCET | Team Lead | Winner

Led a team during the Gen-AI workshop and contributed to the project that won the competition.

▪ Final Year Diploma Project | Project Lead

Led the project team for the development of SmartBlogger, an AI-powered blogging platform.

▪ The Joy of Computing Using Python | NPTEL | Elite-Silver (86%)

Completed the NPTEL course from IIT Madras with an 86% score, demonstrating proficiency in Python programming and computational problem-solving.

▪ Smart Blogging – AI-Powered Intelligent Blog Website | Research Publication

Published research on an AI-powered blogging platform designed to make online content more interactive and learning-focused through content summarization, key-point extraction, contextual chatbot assistance, and quiz generation.
